GRANTS PASS RESOURCE AREA

**Amendment to**  
**Categorical Exclusion Determination and Decision Record**  
**for Assignment of Right-of-Way Under Title V of the Federal Land Policy and Management Act**  
**(CASE No. OR 064362 – Zeutzius, Todd)**  
**CE# OR117-08-13**

**A. Proposed Action: Description of Proposed Action**

An unnamed spur off BLM Road No. 37-6-15 was inadvertently left out of the original Categorical Exclusion, signed on February 20, 2008. This unnamed spur is added to the authorized uses below (italicized) and shown on the Exhibit A map. Project design features and all other aspects of the original CE remain unchanged (see Exhibit B).

The proposed action is the issuance of a right-of-way grant across Road Number 37-6-15 *and an unnamed spur* to Todd Zeutzius, under the provisions of 43 CFR Part 2800, and Title V, P.L. 94-579; 90 Stat 2743. The proposed grant will provide access to a privately held parcel. These assignments are of previous rights-of-way and the term is perpetual. The proposed grant has been assigned serialized case No. OR 064362.

The uses to be authorized include:

Rights of ingress, egress and maintenance of existing BLM road No. 37-6-15 from the north boundary of the SE ¼ of section 21 to the south boundary of the SE ¼ of section 21, *and an unnamed spur leading to the Zeutzius property in the SE ¼ of section 21.*

Road Segment lengths are as follows:

Road segment B1 (BLM Control)	0 .07
Road segment B3 (BLM Control)	0 .45
Unnamed Spur	0 .10
<b>Total</b>	<b>0 .62</b>

*Segment B2 is on Jo County road and the applicant will work with Josephine County for access across that section of road.*

**B. Location/Land Use Allocation:** The land allocation is Applegate Adaptive Management Area (RMP pp. 36-38).

**C. Need / Rationale for the Proposed Action:**

The current use is in conformance with the original application. It is standard procedure for BLM to approve right-of-way renewals where the activity is consistent with past practices and local comprehensive plans (RMP p. 82). The road will be maintained by Todd Zeutzius within the restrictions outlined below.

**Plan Conformance Review**

This proposal is consistent with policy directed by the following:

- the *Final Supplemental Environmental Impact Statement and Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl* (Northwest Forest Plan FSEIS, 1994 and ROD, 1994);
- the *Final-Medford District Proposed Resource Management Plan/Environmental Impact Statement and Record of Decision* (EIS, 1994 and RMP/ROD, 1995);
- the *Final Supplemental Environmental Impact Statement: Management of Port-Orford-Cedar in Southwest Oregon* (FSEIS, 2004 and ROD, 2004);
- *Record of Decision Amending Resource Management Plans for Seven Bureau of Land Management Districts and Land and Resource Management Plans for Nineteen National Forests Within the Range of the Northern Spotted Owl*, approved March 2004;
- the *Final Supplemental Environmental Impact Statement and Record of Decision and Standards and Guidelines for Amendment to the Survey & Manage, Protection Buffer, and other Mitigation Measures Standards and Guidelines* (FSEIS, 2000 and ROD, 2001,
- *Medford District Integrated Weed Management Plan Environmental Assessment (1998)* and tiered to the *Northwest Area Noxious Weed Control Program* (EIS, 1985)
- Final SEIS to Remove or Modify the Survey and Manage Mitigation Measure Standards and Guidelines (2004), *as allowed by Judge Pechman's October 11, 2006 Order as follows:*
  - Thinning projects in stands younger than 80 years old;
  - Replacing culverts on roads that are in use and part of the road system, and removing culverts if the road is temporary or to be decommissioned;
  - Riparian and stream improvement projects (planting, placing material in-stream, road and trail decommissioning, channel and floodplain reconstruction, or removal of channel diversions; and
  - Hazardous fuel treatments with a commercial component in stands > 80 years old.

The proposed action is in conformance with the direction given for the management of public lands in the Medford District by the Oregon and California Lands Act of 1937 (O&C Act), Federal Land Policy and Management Act of 1976 (FLPMA), the Endangered Species Act (ESA) of 1973, the Clean Water Act of 1987, Safe Drinking Water Act of 1974 (as amended 1986 and 1996), Clean Air Act, and the Archaeological Resources Protection Act of 1979.

This proposal is consistent with management direction in the Medford District Resource Management Plan that directs the BLM to “*continue to make BLM-administered lands available for needed rights-of-way where consistent with local comprehensive plans, Oregon statewide planning goals and rules, and the exclusion and avoidance areas identified in this RMP.* (USDI 1995, p. 82).

**EXHIBIT B**

**TERMS, CONDITIONS, AND STIPULATIONS**

**Project Design Features**

- a. This grant or permit is issued subject to the Holder's compliance with all applicable regulations contained in Title 43 Code of Federal Regulations part 2800.
- b. Each grant issued for a term of 20 years or more shall, at a minimum, be reviewed by the Authorized Officer at the end of the 20th year and at regular intervals thereafter not to exceed 10 years. Provided, however, that a right-of-way or permit granted herein may be reviewed at any time deemed necessary by the Authorized Officer.
- c. The stipulations, plans, maps, or designs set forth below are incorporated into and made a part of this grant instrument as fully and effectively as if it were set forth herein in its entirety.
- d. **The Holder or their contractor shall:**
  - 1) Wash all ground disturbing equipment used on BLM lands prior to entering BLM lands to remove any dirt or vegetation that may harbor noxious weed seeds.
  - 2) Conduct all maintenance concerning the use of this authorization at the Holder's cost in a good and workmanlike manner so as to ensure protection of the environment and the health and safety of the public.
  - 3) Notify the Authorized Officer of intended use of any mechanized equipment for the maintenance authorized through this grant fourteen (14) days prior to its intended use; the date it is to commence; and the delegated representative of the Holder. Such delegated representative is the person who is authorized by the Holder to carry out the terms and conditions of the grant and act on behalf of the Holder. The notice of the delegated representative shall include a current mailing address and telephone number.
  - 4) Contact and receive either a permit or notification from the Oregon State Forestry prior to use of mechanized equipment in the maintenance and repair of this right-of-way grant. The Holder and/or his contractor shall comply with all Oregon Department of Forestry and BLM fire restrictions.
  - 5) Immediately stop all operations and notify the BLM upon becoming aware of, encountering, or discovery of any cultural, historical or pre-historic value within the right-of-way.
  - 6) Comply with all applicable State and Federal environmental laws, regulations, and standards. The Holder shall also immediately discontinue all construction or other operations under this grant upon receipt of written notice from the Authorized Officer that such operations are in violation of said provisions.
  - 7) Notify the Authorized Officer upon discovery of any noxious weed species found on

the right-of-way area. The Holder is responsible for immediate control and eradication. The Holder shall consult with, and obtain written approval from, the Authorized Officer for acceptable weed control methods, such as mechanical or chemical, or provide funds to BLM for treatment.

- 8) As determined by the Authorized Officer, do not use dirt roads as access routes when such use would cause severe rutting or erosion; and use, maintenance, and repair activities shall be suspended on public lands if soil condition warrants. The Holder shall repair any environmental damage resulting from activities associated with this authorization to the satisfaction of the BLM Authorized Officer.
  - 9) Undertake every reasonable measure to minimize erosion to the roads and surrounding areas, soil disturbances and turbidity to waterways, ground disturbing activity or the introduction of invasive plants.
  - 10) Promptly remove and dispose of all waste caused by their activities. The term “waste” as used herein means all discarded matter including, but not limited to human waste, trash, garbage, refuse, petroleum products, ashes, equipment and vegetative materials.
  - 11) Not place signs, gates, or barricades on public land, its resources or improvements without prior written approval from the Authorized Officer.
  - 12) Protect all survey monuments, witness corners, reference monuments, and bearing trees within this right-of-way against disturbance during construction, operation, maintenance, and rehabilitation. If any monuments, corners, or accessories are destroyed, obliterated, or damaged, the Holder or his contractor shall restore said items to the satisfaction of the BLM Authorized Officer.
- e. Machinery and/or ground disturbing activity shall be restricted to inside the designated right-of-way only. Work involving soil disturbance shall be performed in the dry season only, which is generally between May 15<sup>th</sup> and October 15<sup>th</sup> of any year. Heavy equipment operation and ground disturbing activities are prohibited when soil moisture content exceeds 25% by weight. All equipment shall be washed and inspected for leaks before entering BLM administered lands.
  - f. No hazardous materials are to be produced, transported, or stored on this right-of-way. The Holder shall notify the Authorized Officer if there is a significant variance from this authorization with respect to hazardous materials and their use, storage, or disposal. The Environmental Protection Agency maintains and updates a list of all hazardous substances that may present substantial danger to the public health or the environment in Title 40 of the United States Code of Federal Regulations Part 302.
  - g. No pesticides (i.e. insecticides, herbicides, fungicides, rodenticides and other similar substances) shall be applied to the grant area unless the Holder has written approval from the Authorized Officer.
  - h. Natural vegetation shall be cleared or trimmed only when necessary to provide suitable access for operation, maintenance and repair of the system. No tree eight inches (8”) in diameter or over at breast height shall be cut without prior written approval from the BLM

Authorized Officer during the exercise of the rights granted herein.

- i. Assignment of this grant to subsequent owners of the property is not automatic. A formal assignment decision must be authorized by BLM. Contact the Authorized Officer of the Bureau of Land Management, Medford, Oregon for information regarding the process.
- j. The United States reserves the right to grant subsequent use pursuant to 43 CFR 2801.1-1.
- k. The right-of-way Holder is aware that Bureau of Land Management (BLM) administered lands in Western Oregon are managed in part for timber resource activities which include timber harvesting, reforestation, and tree release programs. BLM forest management activities may also include application of herbicides, firewood cutting, and prescribed burning. Logging operations cause dust and noise. Many of these activities are considered objectionable by residents living on adjacent private lands. BLM roads will be used to haul timber. Other important resources of these lands include wildlife habitat, minerals, soil and water quality, recreation opportunities, and others. The Holder should also be aware that the BLM may grant other rights- of-way across BLM lands, and also may enter into agreements for exchange or sale of BLM administered lands.
- l. The United States shall not be held liable for any damage to the right-of-way caused by the general public or as a result of fire, wind, or other natural disasters or as a result of silviculture practices, timber harvesting operations, or other actions stemming from the land management activities of the Bureau of Land Management. The Holder shall be responsible for costs incurred for reconfiguration of Holder improvements within the right-of-way when BLM activities are required.

**Categorical Exclusion Determination**

This proposed action qualifies as a categorical exclusion as provided in United States Department of the Interior Departmental Manual 516 DM 11, Appendix 11.9 E. Realty (16): "Acquisition of easements for an existing road or issuance of leases, permits, or rights-of-way for the use of existing facilities, improvements, or sites for the same or similar purposes."

Before any action described in the list of categorical exclusions may be used, the "extraordinary circumstances," included in 516 DM 2, Appendix 2, must be reviewed for applicability (See attached review). After review, the BLM determined no extraordinary circumstances exist that would cause the proposed action to have a significant environmental effect. The action will not require additional analysis.

NEPA Review

4/16/08  
Date

**Decision**

It is my decision to authorize right-of-way grant No. OR 064362, as described in the Proposed Action. The grant is effective immediately and will remain in effect pending an appeal unless the Secretary rules otherwise(See 43 CFR § 2801.10).

**Decision Rationale**

The proposed action has been reviewed by the Grants Pass Resource Area staff and appropriate Project Design Features, as specified above, will be incorporated into the proposal. Based on the attached NEPA (National Environmental Policy Act) Categorical Exclusion Review, I have determined the proposed action involves no significant impact to the environment and no further environmental analysis is required.

**NEPA COMPLIANCE  
CATEGORICAL EXCLUSION REVIEW  
Amendment to Assignment of Right-of-Way (Case No. OR 064362 – Zeutzius, Todd)  
CE# OR117-08-13**

The Department of the Interior Manual 516 2.3A (3) requires the review of the following “extraordinary circumstances” (516 DM 2 Appendix 2) to determine if an otherwise categorically excluded action would require additional analysis and environmental documentation.

**Proposed Action:**

Grant right-of-way access over existing Bureau of Land management for the purposes of ingress, egress and maintenance of existing BLM road Nos. 37-6-15 from the north boundary of the SE ¼ of section 21 to the south boundary of the SE ¼ of section 21.

Department of the Interior Manual 516 DM 2, Appendix 2 provides for a review of the following criteria for categorical exclusion to determine if exceptions apply to the proposed action based on actions which may:

1. *Have significant impacts on public health or safety.*

**No**

2. *Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resource;, park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments; migratory birds; and other ecologically significant or critical areas.*

**No**

3. *Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources [NEPA Section 102(2)(E)].*

**No**

4. *Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.*

**No**

5. *Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.*

Yes      **No**

6. *Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.*

Yes      **No**

7. *Have significant impacts on properties listed, or eligible for listing, on the National Register of Historic Places as determined by either the bureau or office.*

Yes     **No**

8. *Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species.*

Plants     Yes     **No**

Animals     Yes     **No**

Fish     Yes     **No**

9. *Violate a Federal law, or a State, local, or tribal law or requirement imposed for the protection of the environment.*

Yes     **No**

10. *Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898).*

Yes     **No**

11. *Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007).*

Yes     **No**

12. *Contribute to the introduction, continued existence, or spread of noxious weeds or nonnative invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112).*

Yes     **No**
